
Guidelines for authors

Economists' Forum (in Hungarian: Közgazdász Fórum) is a bimonthly scientific journal of economic profile edited by the Hungarian Economists' Society of Romania and the Department of Economics and Business Administration in Hungarian Language of Babeş-Bolyai University (Faculty of Economics and Business Administration). Its reference number is ISSN 1582-1986. The journal has six editions a year, five of them in Hungarian and one in English.

The Economists' Forum has been recognised by the Romanian Council of Scientific Research (CNCSIS). Starting from volume XII, no. 92 (December 2009) the issues of the Economists' Forum are indexed in the ProQuest and EBSCO international databases.

Economists' Forum invites papers presenting the conclusions of theoretical or applied economic research, scientific debates, or book reviews. The articles can be written in Hungarian or English. The articles should be submitted to one of the following e-mail addresses: kinga.kerekes@econ.ubbcluj.ro, office@rmkt.ro.

The text should be between 8 and 20 printed pages, numbered, A4 format, characters Times New Roman 12, single spacing. The first page must contain the title of the article, the author's name, their complete scientific title and affiliation, professional address and e-mail, followed by an abstract of 5-10 lines, that should present the main results of the article. The abstract will be followed by 5-7 keywords and one or more JEL classification code(s). If the article is in Hungarian, authors are required to submit an English abstract with title and keywords as well.

In the text reference quotes will appear between brackets, with the name and the publication date, e.g.: (Gyeroffy 1997), for two authors (Black and Scholes 1973). In case of three or more authors, only the first will be mentioned, under the form (Barberis et al. 1998). If two references have the same author and year of publication, they will be differentiated through letters (Fanra 1965a). These letters will also appear in the bibliography.

At the end of the article the references will be presented as follows:

- periodicals: the list of the authors including the first name initial, the year of publication, the title of the article, the name of the periodical in italics without abbreviations, the number of the volume and the number of pages;
 - books: the list of authors including the first name initial and the year of publication, the title of the book in italics without abbreviations, the place of publication and the publishing house.
-
