

## Content - ECB 2012, 1(8)

1. Crystal Structure, Visualization, ESR, Thermal, and Spectral Studies and Microstructural Features of Thorium-Doped $Pb_{1-x}Th_xZrO_3$ Perovskite <i>Khaled M.Elsabawy</i>	285
2. Synthesis and characterization of nanocomposites having catalytic activities using microwave techniques <i>M.S. Al-Amoudi, M.S. Salman, A.S. Megahed and M.S. Refat</i>	293
3. An overview on properties and classification of wax phase change materials (WPCMs) <i>Huang Wei</i>	305
4. Magnesium supplementation and microelement homeostasis <i>Klára Szentmihályi, Zoltán May, Ibolya Kocsis, Krisztina Süle, Anna Blázovics</i>	307
5. Isolation and identification of marine phytoplanktons for production of carbohydrate type biomass <i>Syahrudin Kasim and M. Sjahrul</i>	311
6. Inhibitors for prevention of corrosion of metals in sea water – an overview <i>M. Manivannan, S. Rajendran and A. Suriya Prabha</i>	317
7. Radioactive Thorium-doping Effects on the Spectral and Electrical Features of Th-Doped $212$ -Vanadate Ceramics <i>Khaled M. Elsabawy and Morsy M.Abou-Sekkina</i>	330
8. An overview on synthetic methods of n-butyl acetate <i>Cong Yufeng</i>	336
9. Effect of industrial-communal sewage sludge treatment on the Cd and cr fractions of soil and on plant uptake <i>Márk Rékási, Tibor Filep, Péter Ragályi, Imre Kádár</i>	338
10. Effect of microelements on alfalfa on a sandy soil <i>Péter Ragályi*, Márk Rékási, Imre Kádár</i>	343
11. Content	349
