

ABOUT THE FIRST TWO YEARS OF EUROPEAN CHEMICAL BULLETIN

Dear Colleague,

European Chemical Bulletin is indexed by *Chemical Abstract*, *Scifinder*, *RSCI* and *DOAJ*. Evaluation of our journal is just being done at *Thomson Reuters SCI* and *Scopus*. Citing of our papers published in 2012 and 2013 started in 2013, until now we could find ~60 citing papers.

In order to promote the free flow of scientific information, the European Chemical Bulletin supported the scientific publication occasionally by opening discount or free publication possibilities for the scientific community in these two years. Discount publication possibilities will be offered for the authors in 2014 as well.

We have published ~300 papers in the last two years, there are more than 116 000 full text downloadings until now.

Author's distribution according to their country:

Armenia	Italy
Australia	Japan
Austria	Jordania
Bulgaria	Kuwait
