Who is she?

A woman.

Maybe.

Does she want to be beautiful?

Probably.

Or perhaps she prefers to be self-identical instead.

Is she young?

Yes, but might have experienced more than her age.

Is she happy?

A smile doesn't mean that.

Should she wear clothes that fit

her shape, age, hair, boyfriend, social status?

Come on, it's 2017!

She should wear whatever she wants, whenever she wants!

We choose to be who we are and what we write on our body! The real Zeitgeist is in the freedom of self-expression.

Let us celebrate the wonder of endless possibilities -
and endless personalities in one person!
