

Brief Summary of the Articles

State aid provisions relating to employment and the most important Hungarian measures

ZSÓFIA GALAMB – ZSÓFIA KÁNYÁSI

Since October 2008 because of the economic crisis almost quasi net 90-100.000 workplaces has terminated. In fact this proportion could be much higher lack of the undermentioned measures. As Hungary is a Member State of the European Union, it has to keep the referring competition – state aid – rules concerning employment aid. There are many measures for supporting of creating jobs. During the crisis job-saving is much more important, according to the writers the Community state aid provisions cannot provide enough possibilities for the aid granters. The main reason of this summary is to display the solution of narrowing the unemployment between the state aid law.
