The limits of jurisdiction to enforce claims debt arising out of the international carriage of goods related to insolvency proceedings and closely connected with those proceedings

KATALIN JEZERNICZKI

In this paper interaction between the Regulation (EC) No 1346/2000, the Regulation (EC) No 44/2001 and the Convention for the International Carriage of Goods by Road (CMR) has been presented by examining the selected case law of the European Court of Justice.

The author has focused on the Case „Kintra” UAB and presented the limits of jurisdiction to enforce claims debt arising out of the international carriage of goods related to insolvency proceedings and closely connected with those proceedings.
